

# EDUCATIONAL WORKSHOP SERIES

Engage. Learn. Advance.

**SKIN DEEP: 10 MOST COMMON DERMATOLOGICAL COMPLAINTS IN A MILITARY SETTING**  
13 SEPTEMBER 0830-1600, MELBOURNE CITY

**Skin Deep: 10 most common dermatological complaints in a military setting**  
**LTCOL Dr Keng-Ee Thai**

**Saturday, 13 September 2025**  
**Melbourne**

In this full-day workshop, we will explore dermatological conditions in military and veteran healthcare. Areas covered will include, but are not limited to:

- Feet and Fungus: blisters, fissures, pitted keratolysis, tinea pedis and more
- Exposure and Infections: perniois, immersion foot syndromes, frostbite and more
- Occupational Skin Disease: hand dermatitis, contact dermatitis, acne (vulgaris and occupational)
- Chronicity and Curiosity: psoriasis, atopic dermatitis, lichen simplex, rosacea and more

Through interactive discussions and practical insights, participants will gain a deeper understanding of dermatological care in both deployed and post-service settings, ensuring optimal health outcomes for those who serve.
